An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Richard Burgujian on 11/24/04.

The application has been amended as follows: In claim 1, line 19 and in claim 5, line 25, "the integer portion" has been changed to "an integer portion".

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: None of the references of record teach "an accumulation/addition section including a decimal section which accumulates/adds a value of the decimal portion f in response to the outputted frequency-divided signal to provide a decimal value of an accumulation/addition result and an integer portion to provide a carry signal; an adder which adds the value of the integer portion n of the integer setting section and the value of the integer portion" as recited in claims 1 and 5. Further, none of the references of record teach a method comprising the steps of "accumulating/adding a value of the decimal portion f in response to the frequency-divided signal to provide a decimal value

of an accumulation/addition result as a decimal portion and to provide a carry signal as an integer portion; adding the value of the set integer portion n and the value of the integer portion of the accumulation/addition result to provide an added value of an integer" as recited in claim 7.
